

## DESCRIPTION

A series of understated, balanced luminaires. The Stasis family of luminaires feature die cast and extruded bodies with elegant free flowing lines. Ideal for accent and display lighting applications. This Stasis LED Large luminaire is perfect for those applications where performance is required from a discreet source.

## SPECIFICATION FEATURES

### Quick-Lock Adapter \*

Attaches electrically and mechanically anywhere along track. Includes discreet locking tab that locks luminaire on track and allows for easy removal and repositioning. Two position conductor allows use in single circuit and either circuit of two circuit track.

### Lockable Aiming

Luminaire tilt and rotation can be locked in place easily with the included 0.5mm allen wrench.

### Switch

On/off switch allows power to be turned off during installation on individual luminaires.

### Optics

Optical distributions are field changeable and designed with patented IMS optics.

### Driver Housing

Die cast and extruded aluminum housing incorporates the lamp control circuit.

### Heat Sink

Aluminum die cast heat sink provides exceptional thermal management to yield 70% lumen maintenance after 50,000 hours of operation.

### Luminaire Arm

Arm allows the housing tilt to adjust +/-90°. It also pivots +/-90° around the driver housing. This enables the driver housing to remain static on the track creating a clean look, while providing full aiming capabilities. The arm employs graduations every 15° for precise and repeatable tilt aiming. Indicator mark on the bottom ensures perfect lamp housing alignment with track.

### LED Light Engine

Equipped with (16) 3 Watt white LEDs. High CRI of 85 with excellent color consistency of +/- 50 K color temperature.

### Labels

UL/cUL Listed for use with Halo Architectural Power-Trac and Lazer Track. UL/cUL classified for use with Juno<sup>1</sup>, Lightolier<sup>2</sup> and Global TEK/HTEK<sup>3</sup> Track. DesignLights™ consortium qualified. Refer to www.designlights.org qualified products list for details. Options to meet Trade Agreements Act requirements.

### Warranty

Subject to all of the limitations set forth in Cooper Lighting's Terms and Conditions of Sale, for HALO TRACK LED products, the limited warranty set forth shall have a period of 5 years from the date of shipment of products.

DesignLights™ Consortium Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details. 4. Only product configurations with this designated prefix are built to be compliant with the Trade Agreements Act of 1979 (TAA). Please refer to [DOMESTIC PREFERENCES](http://www.designlights.org) website for more information. Components shipped separately may be separately analyzed under domestic preference requirements. 5. Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.

Notes and Definitions:

Beam spread is to 50% center beam candlepower (CBCP.)  
 D=Distance in feet to floor or wall.  
 FC=Footcandles on floor or wall at center beam aiming location.  
 L=Effective Visual Beam length in feet (50% of maximum footcandle level.)  
 W=Effective Visual Beam width in feet (50% of maximum footcandle level.)  
 CB=Distance in feet across or down to center beam location.
