Product Features

damp location

Top Product Features

- Three color temperature and three lumen package choices for use in a variety of applications
- Selectable switches are located on top of the junction box, for quick adjustment before and after installation
- Acrylic micro-optics provide uniform illumination across the entire lens
- Extruded aluminum frame tightly seals to the housing for optimal performance and aesthetics
- Minimum fixture height ideal for shallow plenum
- Factory installed 8 Watt emergency LED driver in stock
- Integral WaveLinx LITE controls in stock, WaveLinx PRO Make to Order

Notes:
(1) UGR values per CIE 190:2010 with 4H, 8H, Reflectance: 70% Ceiling, 50% Wall, 20% Ref. Plane.

Luminance measured at 45-90 degrees from nadir.

UGR and Luminance values that meet WELL v2 L04 requirements for Managing Glare are shown with green highlighted cell (UGR < 16, Luminance < 6,000).

Key

	Meets WELL v2
TEXT	Meets LEED v4.1

UGR and Luminance values that meet LEED v4.1 requirements for Glare Control are shown with green text (UGR < 19, Luminance < 7,000).

Options

CGTS Options

Gray bar denotes 10-Day Quick Spec (2)

Catalog	Description	Example	Notes
WLS	WaveLinx LITE Sensor	22CGTS-L3C3-WLS	Stocked Option. Not available with EL8W EM option
WPS	WaveLinx PRO Sensor	22CGTS-L3C3-WPS	Not available with EL8W EM option
EL8W (1)	8W EM Installed with Integral Test Button	22CGTS-L3CL3-EL8W	Stocked Option. Not available with models that have WLS sensors
EL14W (1)	14W EM Pack, Installed	24CGTS-L3C3-EL14W	Remote Indicator/Test Switch
A3/8-4/18GDIM	6' Length, 3/8" Cable, 2 Wire, 2 Dimming Leads, Ground	24CGTS-L3C3-A3/8-4/18GDIM	
EL14W-A3/8-5/18GDIM	14W EM Pack, Installed, and 6' Flex, 3/8" Cable, 3 Wire, 2 Dimming Leads, Ground	24CGTS-L3C3-EL14W-A3/8-5/18GDIM	EL14W can be used with only 5/18G flex. EM pack is always specified before (to the left of) the flex, in the catalog number.

Notes: (1) Factory installed with remote test switch/indicator/laser test. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaire under emergency operation available. Battery option increases total height by 1 inch. (2) QS=100 luminaires maximum order.

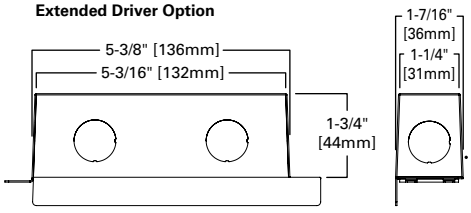
Extended Driver Option



CGTS Product Specifications

Construction
- Die-formed steel back plate is post-painted to ensure durability
- Housing is constructed absent of holes
- Aluminum frame weld and ground, for a seamless appearance

Mounting
- Integral grid clips secure fixture to the ceiling structure
- Junction box constructed of code gauge galvanized steel with access plate
- Multiple 7/8" KO's provided, suitable for up to 12AWG wiring
- Surface and suspension kits available for use in grid or hard surfaces
- Factory installed flexible cable with dimming leads available

Controls
- Standard UNV 120 - 277V driver with 0-10V dimming, 10% standard
- Can be used with tile mounted sensor or other remote mount controls
- Stocked WaveLinx LITE option
- WaveLinx PRO option make to order
- Selectable driver for three color temperature choices and three lumen package choices

Electrical
- CGTS projected lumen maintenance based on TM21 testing standards is >L82@60,000 hours
- Driver rated for FCC part 15 Class B for use in residential or commercial applications
- LEDs are 80 CRI (minimum) and switch to 3500K, 4000K, or 5000K.
- Emergency battery pack options: stocked 8W, factory installable 14W option
- Default CCT/Lumen Setting:4000K/Medium

Optical Shielding
- Acrylic micro-optics enable uniform distribution of LEDs for uniform lens illumination
- Smooth, frosted lens delivers uniform illumination across the entire lens
- Durable lens with surface texture to minimize scratch and impact damage

Regress Frame
- Factory installed option available for ship complete, single unit to speed install. See fixture ordering logic
- Fits CGTS, CGT, FPS, and FP. Consult factory for additional luminaire choices
- Extruded aluminum frame with miter corners at 2" nominal height
- Regress kit does not alter design or construction of luminaire
- Accessory kit also available

Certifications
- cULus listed for 25C ambient environments, indoor applications
- IC rated for direct insulation contact
- UL damp location listed
- IESNA LM-79 and LM-80 standards compliant
- Qualifies as State of California Title 24 high efficiency luminaire
- FCC part 15 class B (residential) compliant
- DesignLights Consortium® Qualified and classified for DLC standard. Refer to the DLC Qualified Products list at www.designlights.org/QPL to confirm which versions are qualified
- Meets IP5X rating from the room side with no modification needed
- Fixture is rated for NSF/ANSI standard 2 - Light fixture for Non-Food Zone

Warranty
- Five year limited standard warranty
- Extended ten year limited warranty available

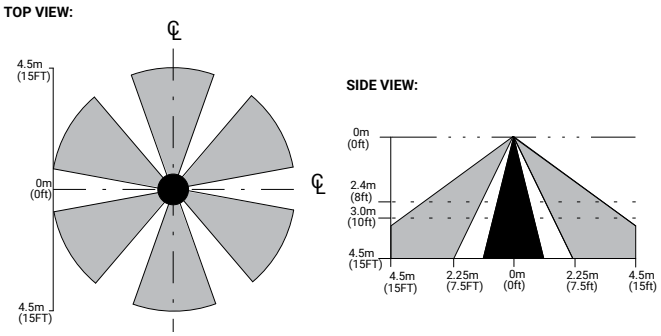
Control Solutions

- WaveLinx LITE wireless
- WaveLinx PRO wireless

WaveLinx Digital Lighting Control Solutions

Integrated Sensor Coverage Pattern



***Note**: Installation of integrated sensors within 3-ft (1m) of HVAC air vents is not recommended. The pattern shown is intended solely as a general guide and is not to scale.*

The CGTS with WaveLinx offers no-hassle lighting control with multiple luminaire level control solutions.

WaveLinx LITE is a Bluetooth wireless digital lighting control solution with out-of-the-box functionality that saves energy and meets energy codes. It's designed for applications that require occupancy-based, daylighting, or manual light control using WaveLinx LITE-enabled luminaires and a mobile app for cost-effective projects.

WaveLinx PRO is a Zigbee wireless solution that offers a rich portfolio of devices, WaveLinx PRO-enabled luminaires, and a mobile app and the WAC (WaveLinx Area Controller). It offers advanced energy savings and deep data integration to improve the occupant experience.

Integrated Controls Options					
Option	**Out of the Box Functionality**	**Luminaire Level Lighting Control (LLLC)**	**Automatic Dimming Photocell**	**Occupancy Sensing**	**CCT Control***
WLS (WaveLinx LITE Sensor)	X	X	X	X	
WPS (WaveLinx PRO Sensor)		X	X	X	X

Note: *WaveLinx utilizes scenes to allow users to change an area's fixtures Correlated Color Temperature (CCT) and intensity using a commissioned wireless wallstation scene controller. To enable CCT adjustments through WaveLinx, include WPS or WPN devices in addition to VividTune or BioUp technologies for integrated fixture control. WPS with CCT controls the intensity of the fixture; an additional, externally mounted control device is needed to control the CCT. See RSP-P-010-347
