

DESCRIPTION

The VT4 Series is an energy efficient industrial Vaportite fixture that features rugged and durable construction. The VT4 incorporates a full metal tray inside a reinforced fiberglass housing with a high impact diffuser. This Vaportite series is suitable for interior and exterior applications and can be chain or cable mounted.

The VT4 Series has been designed for maximum operation in commercial institutional and industrial environments where weathering, high temperature, humidity and dust or corrosive fumes are present.

SPECIFICATION FEATURES

Construction

Fiberglass reinforced polyester housing is UL94 and UL746 5VA flammability rated. Rounded housing allows for easy cleaning during high pressure hose down. Watertite hubs for 1/2" conduit entry is provided at each end of housing (standard) for continuous feed. Continuous closed cell gasketing is formed inside the housing ledge, providing a continuous seamless seal for the diffuser. Stainless steel cam latches hold diffuser tightly for a positive seal between housing, gasketing and diffuser.

Electrical*

Unit has full hinged metal gear tray secured by internal latches for toolless ballast access. Rotor lock lampholders. CBM/ETL Class "P" certified to 70°C. (Cold temperature ballasts are available for less than 0°F starting with EB/PLUS, ER/PLUS ballasts. Electrical components and fixtures are UL/cUL listed for Wet Locations. NEMA 4X, IP65 and IP67 rated, up to 1500 PSI hosedown. NSF certified.

Optics

Available internal specular aluminum reflector.

Shielding

High impact, clear acrylic (standard), or optional 100% polycarbonate lens diffuser.

Mounting

Suspended using two stainless steel mounting bails (included). Optional Y-hook, Y-cable mount is also available. Mounting hardware must be ordered separately.

Compliance

Options to meet Buy American and other domestic preference requirements.
