Product Features

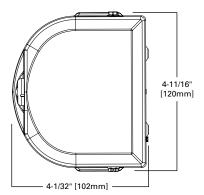

Top Product Features

- · Lumen packages up to 2000 lumens per foot for high mounting locations
- Excellent performance with Im/W, ranging up to 150 Im/W with LC lens
- · 4ft. and 2ft. product configurations for mounting versatility
- · Multiple sensor options for connected or control at multiple heights
- · Standard 10% 0-10V driver with optional DALI, 1% and step dimming options
- · Options to meet Build America, Buy America, Buy American and other domestic preference requirements

Order Information

SAMPLE ORDER NUMBER: SWLED-40SL-LW-UNV-L840-CD1-WLS-U

Domestic Preferences	Length	Series	Lumen Output	Optic	Voltage	
Domestic Preferences (1)	Length	Series (2)	Lumen Output	Optic	Voltage	
[Blank]=Standard BAA=Buy American Act TAA=Trade Agreements Act BABAF=FHWA and FTA projects funded through October 1, 2026	2=2 ft. Length 4=4 ft. Length	SWLED =LED Surface and Wall	LED Lumens (3)	LC=Clear Lens LN=Semi-Frost Lens- Narrow LW= Full Frost Lens- Wide	UNV=Universal Voltage 120-2777 347V=347 Volt (6) UNC=347V/480V (7)	
Notes		Notes	Notes		Notes	
(1) Only product configurations with these prefixes are built to be compliant with the Buy American Act of 1938 (BAA), Trade Agreements Act of 1979 (TAA), or the Build America Buy America Act (BABA), BABA is the minimum Government compliance requirement for the Build America Buy America standards which is part of the Infrastructure and Investment Jobs Act (IJA), Individual Government Agencies may have more stringent compliance standards. BABAF designates the product will meet the standards set for FHWA and FTA. As noted, these must be funded by October 1, 2026. Please refer to DOMESTIC PREFERENCES website or consult the CLS Domestic Preferences team for more information. Components shipped separately may be separately analyzed under domestic preference requirements.		(2) DesignLights Consortium® Qualified and classified for both DLC Standard and DLC Premium, refer to www.designlights.org for details.	(3) Nominal lumen output see table for performance values. (4) 2ft. model. (5) Integral options only available in 4ft model.		(6) 347V option – 60HL and above uses two drivers. (7) 347V listing in DLC is for standard 347V ONLY driver. No DLC listing for UNC.	

Emergency Options	CCT	Driver Type	Number of Drivers	Integrated Control
-------------------	-----	-------------	-------------------	--------------------

Emergency Options (8), (10)	ССТ	Driver Type	Number of Drivers	Integrated Control
ELTW=7-watt, 120V-277V Emergency Battery Pack Installed (9) EL14W=14-watt 120V-277V Emergency Battery Pack Installed (9) ETRD= 120-277V Emergency Transfer Relay with Dimming Control (11)	L830=3000K L835=3500K L840=4000K L850=5000K L930=3000K, 90CRI L935=3500K, 90CRI L940=4000K, 90CRI L950=5000K, 90CRI	CD=0-10V Driver (10% - 100% Dimming) CDW=Non-Programmable Driver, Limited Lumen Packages, 0-10V Dimming (10%-100%) HCD=0-10V Driver (1% - 100% Dimming) SD=Step-Dim Driver SLTD=DALI (1% - 100% Dimming)	1=1 Driver 2=2 Drivers (12)	WLS (formerly WAB)=WaveLinx LITE Wireless Sensor, Occupancy w/ photocell, Independent & Networked (19, 104), (8) WPS (formerly WAA)=WaveLinx PRO Wireless Sensor, Occupancy w/ photocell, Networked (19), (14), (A)
Notes (8) Integral options only available in 4ft model. (9) With integral test switch/indicator. For approximate delivered lumens multiply the lumens per watt of the desired fixture by the wattage of the emergency battery pack (100 lm/W x 7=700 lumens). IES-format photometry for luminaire under emergency operation available. (10) Integral EL battery pack is rated for 35°C. (11) Used to bypass local control during outage. Must be used in conjunction with UL 1008 device (provided by others). ETRD option requires one relay when used on a dimming fixture.			Notes (12) 347V option – 60HL and above uses two drivers.	(13) WaveLinx sensors suitable for wall mount applications. (14) WAA and WAB sensors to be used with CD or HCD driver. Integrated options must be used in conjunction with the associated system and may not be compatible with other options or accessories. Please refer to the following: (A) Consult WaveLinx PRO system pages for additional details and compatibility. (B) Consult WaveLinx LITE system pages for additional details and compatibility.

Packaging

Accessories

Packaging	Accessories (order separately) (15)
U =Unit Pack	SCF=Fixed Stem Set (Specify Length) SCS=Swivel Stem Set (Specify Length) SCA=Adjustable 48" Stem Set A1B/Spacer-U=Spacer 1-1/2" to 2-1/2" from ceiling (Use 2 Per Fixture)
	Notes
	(15) Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.
	Integrated options must be used in conjunction with the associated system and may not be compatible with other options or accessories.

Metalux SWLED

Product Specifications

Construction

- · Die formed cold rolled steel housing
- · Decorative white opaque injection molded
- Reflector/channel wireway cover secured by fasteners for easy access
- · Numerous channel KO's for easy installation

Controls

- · 0-10V dimming drivers to 10% standard, 1% optional
- · WaveLinx integrated sensor options provide code compliance, increased energy savings, grouping of fixtures, and connection to WaveLinx control systems
- · DALI 2.0, Lutron, and step-dimming available

- · Long-life LED system with electrical driver for optimal performance
- · Minimum 80 CRI
- TM21 rating up to L91> 60,000hours

Emergency Battery Pack Option

- · Optional 120V-277V integral battery pack in 7w or 14w options
- · 90 minute backup period
- Test swtich/indicator button with laser pointer testing feature for ground testing
- · EZ Key system prevents accidental discharge during
- Emergency/generator transfer relay with dimming control capability available

Finish

- · High reflective post painted finish (PAF)
- · Treated in multistage iron phosphate pretreatment

- · Three lens options available: LC (clear), LN (semifrost with narrow distribution), and LW (full frost with wide distribution)
- Lens is held in place by removable injection molded white end caps

Installation

- Surface mount
- · Suspended mount

- · cULus listed for up to 40C ambient environments
- · Damp location listed for ceiling and wall mounting
- · Comply with IESNA LM-79 and LM-80 testing standards
- Suitable for use in clothes closets
- · Recommended for use in stairwells when installed to NEC 410.16 spacing requirements
- · Can be used for State of California Title 24 high
- · efficacy luminare
- · DesignLights Consortium Qualified and classified for both DLC Standard and DLC Premium

BABA Domestic Preference Compliance

 FHWA and FTA agencies are utilizing their BAA rules for BABA compliance. Cooper's products with a BAA designation are manufactured in the US and utilize a BAA COTS exemption rule for compliance. To verify a configured product with specific accessories and options meet BABA Domestic Preference Requirements; submit this catalog number to Cooper Lighting Quotation team for validation by our Engineering and Manufacturing teams. Please refer to the <u>DOMESTIC PREFERENCES</u> website or consult the CLS Domestic Preferences team for more information. Components shipped separately may be separately analyzed under domestic preference requirements.

Integrated Sensor Coverage Pattern

WaveLinx PRO/LITE Sensor - WLS and WPS

Note: Installation of integrated sensors within 3-ft (1m) of HVAC air vents is not recommended. The pattern shown is intended solely as a general guide and is not to scale.

The SWLED with WaveLinx offers no-hassle lighting control with multiple luminaire level control solutions.

WaveLinx PRO is a wireless lighting control solution, for connected spaces, that significantly reduces a building's energy consumption. From a single floor to an entire campus, WaveLinx PRO connects more than lighting assets; it shares aggregated sensor data with the WaveLinx CORE platform and other building systems, so building owners can improve operations, spaces environment, and tenants' experience. WaveLinx PRO offers a rich portfolio of wireless devices, WaveLinx PRO-enabled luminaires, and an intuitive WaveLinx mobile app for office, education, warehouse, and parking garage applications.

WaveLinx LITE is a cost effective, wireless digital lighting control solution, with out-of-the-box functionality, that saves energy and meets code. It's designed for applications that require occupancy-based, daylighting, or manual light control. Customize installations for office, education, warehouse and parking garages using the secure, simple mobile app.

With Integrated WaveLinx Sensor

Integrated Controls Options									
Option	Out of the Box Functionality	Luminaire Level Lighting Control (LLLC)	Automatic Dimming Photocell	Occupancy Sensing	CCT Control*				
WLS	X	х	Х	Х					
WPS		х	Х	Х	Х				

Note: *WaveLinx utilizes scenes to allow users to change an area's fixtures Correlated Color Temperature (CCT) and intensity using a commissioned wireless wallstation scene controller. To enable CCT adjustments through WaveLinx, include WPS device in addition to VividTune or BioUp technologies for integrated fixture control. WPS with CCT controls the intensity of the fixture; an additional, externally mounted control device is needed to control the CCT. See RSP-P-010-347

The WNPS option is available with WLS or WPS sensors. Must be specified when ordered. Also note that WLS and WPS are also compatible with ESP-L-010-347 and ESP-P-010-347, respectively. Learn more about WaveLinx EM https://example.com/here-2.

Systems comparison chart

Cooper Lighting Solutions provides many lighting system solutions designed to satisfy code requirements and meet the unique needs of any project.
