# Sequence of Operations

### Lighting

#### 0-10V lighting loads

- Each luminaire includes
- dimmable integrated sensor • Each luminaire supports
- occupied/unoccupied programmable light levels

#### Daylighting

- Continuous dimming
   Individual luminaire daylight
- dimming
  Daylighting not required for
- indoor space

# **Additional Features**

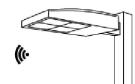

- Energy calculations (available through Trellix)
- Automatic demand response available from wireless area controller
- Scheduling of partial off light levels and times from
- wireless area controller
  UL924 emergency control capabilities available via luminaire battery backup
