Product Features

Top Product Features

- PoE touchscreen can be installed virtually anywhere
- Customizable graphics
- Password protection capabilities
- Area, Scene, Zone level control with buttons and/or sliders
- Save scene capabilities with password protection
- Color picker for white tuning or DMX color changing

Dimensional and Mounting Details

8" touchscreen is installed in a standard two gang box, either portrait or landscape

Scale

Order Information

Catalog Number

Catalog Number	Description
912600000525	TSE80-B 8" LED color touchscreen, Black

Required Accessories

Catalog Number

Catalog Number	Description
TSI-1-NA	Touchscreen interface accessory

Product Specifications

Key Features

- 8 inch (203.2mm) diagonal backlit capacitive LCD touchscreen
- 1280 X 800 pixel resolution
- Color Depth: 16.7M colours, 400 nits brightness
- Ambient Light sensor
- Fits US NEMA 2 gang back box
- All graphics and buttons can be customized
- Password feature to allow different access levels
- Designed and manufactured to ISO9001:2015 standards
- Portrait or landscape mounting and layout

Functionality

- Scene Selection
- Scene programming
- Channel level indicated with bar graphs and percentage
- Scene and channel naming
- Default screen programming
- Photocell / motion sensor interaction
- Ability to import drawings, customer logos and images as background graphics
- Ability to insert soft buttons for activating scenes and / or channels

Mechanical

Display: High performance HD, IPS 8" LCD, 1280 X 800 resolution

Color Depth:

- 16.7M colors, 400 nits brightness

Client Range:

- **Temperature:** +2°C to +40°C
- **Humidity:** +5 to 95% non condensing

Mounting: Do not mount on metal surface

Electrical

Supply:

- PoE 802.3af complaint or via 24Vdc power connector on the rear

Power Connection:

- RJ45

Programming:

- Cooper's Touchscreen Designer software via Ethernet connection

Diagnostics:

- network

Memory:

- 1GB DDR3
- 8GB eMMC

Standards/Ratings

- cULus Listed - Energy Management Equipment (UL916)
- FCC Part 15/ECES-003
- Manufactured in an ISO 9001 certified factory
- Meets ASHRAE Standard 90.1 requirements
- Meets IECC 2015 requirements
- Meets CEC Title 24 requirements

Product Safety:

- IEC 60950-1
- UL 60950-1
- EN 60950-1
- CAN/CSA-C22.2 No. 60950-1

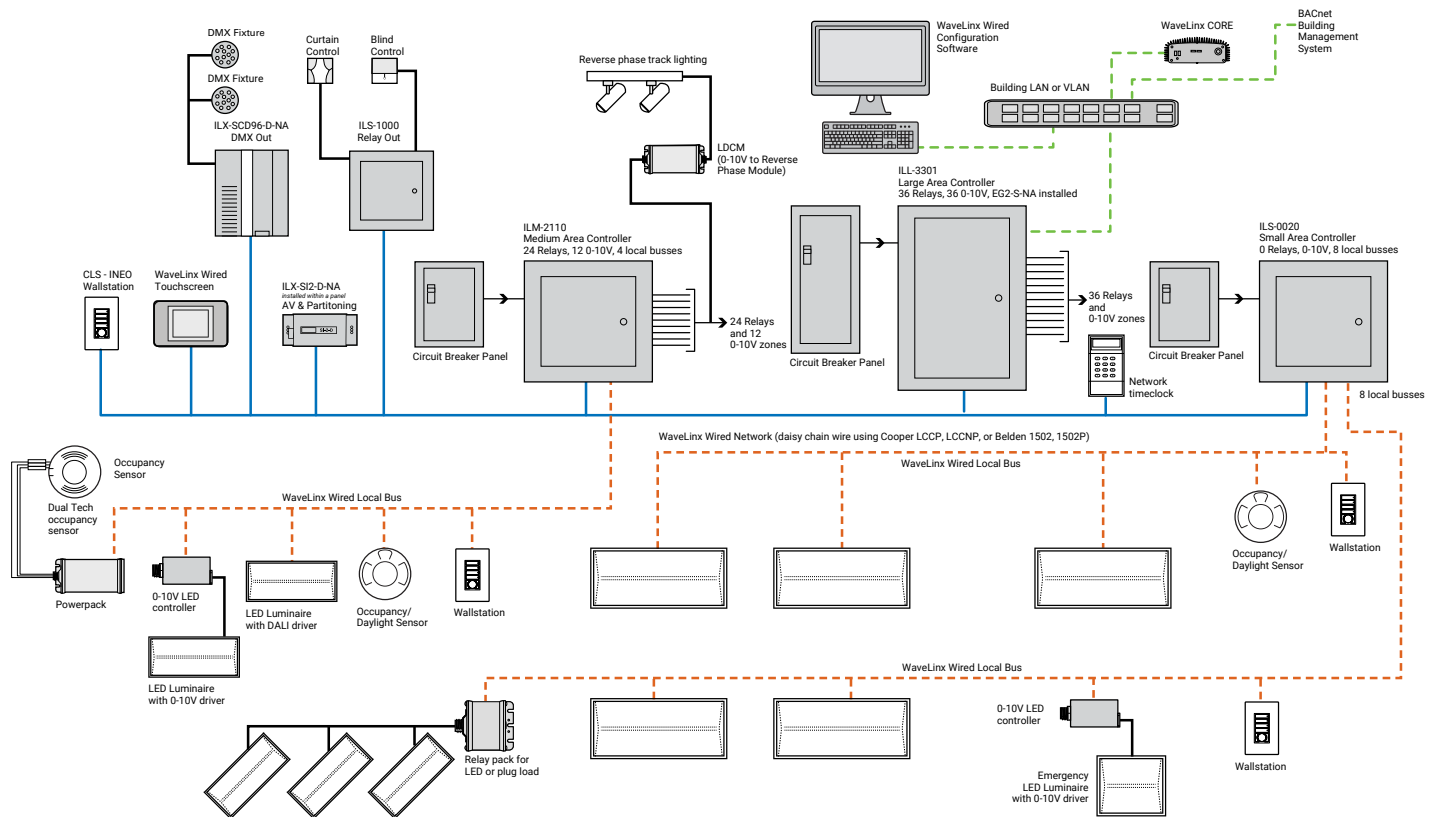

Environmental Regulations:

- RoHS Directive 2011/65/EU
- WEEE Directive 2012/19/EU

Warranty

Five year warranty standard

Simple WaveLinx Wired system

Typical schematic

Mounting

Images are examples for reference only.

Do not mount on metal surface

Sample System Topology:

This diagram shows the main components of the WaveLinx wired and PRO wireless connected lighting system.

The **WaveLinx PRO wireless system** communicates using wireless mesh technology based on the IEEE 802.15.4 standard.

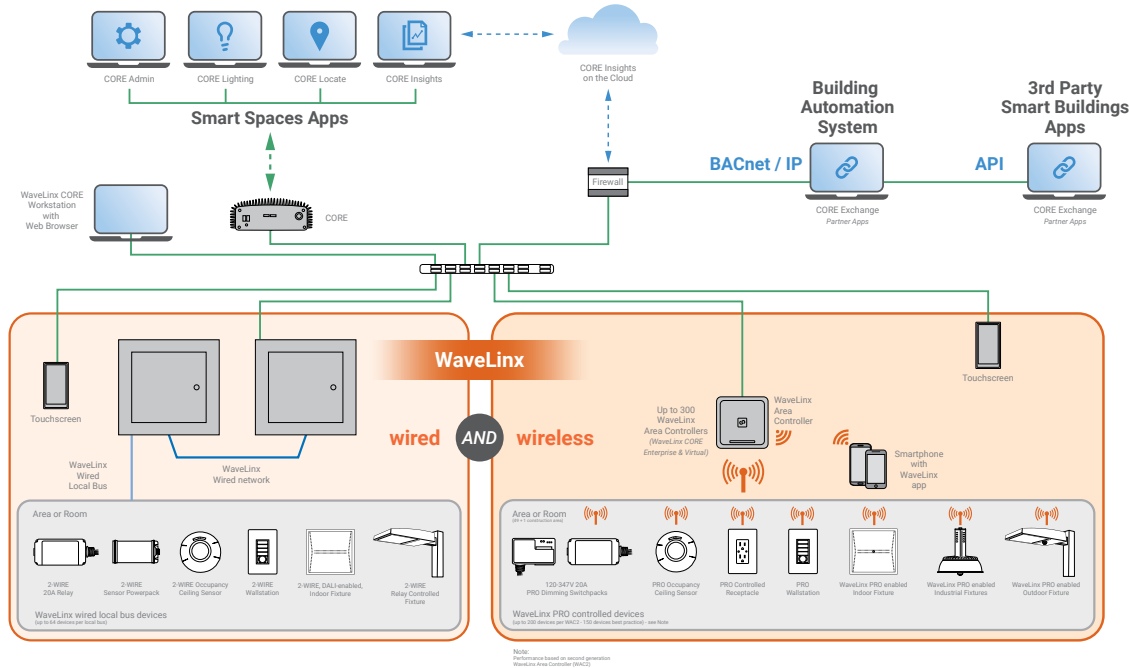

A PoE LAN connection for each WaveLinx Area Controller (WAC) is required for power and data access to the building lighting network.

The **WaveLinx wired system** controls the devices using relay, 0-10V, DMX and the WaveLinx wired digital local bus. The WaveLinx wired system connects to the building LAN using the EG2 module. Each WaveLinx wired area controller communicates on the WaveLinx wired network.

WaveLinx Area Controllers (WAC) and WaveLinx Ethernet Gateways (EG2) communicate with WaveLinx CORE over the Ethernet network.

Please refer to the WaveLinx PRO Wireless Network and IT Guidance Technical Guide and WaveLinx Wired Network and IT Guidance Technical Guide for more information.

* For larger number of gateways and devices, please contact Cooper Lighting Solutions Sales representatives.
Recommend designing the system at 70-80% of maximum capacity. Specifications based on WAC2-POE.
The number of gateways and devices mentioned above are the total for a single system or the combination (Wired + Wireless) that can be used with a server.
