

Product Use Case: Ephesus All Field & Prism University of Georgia Sanford Stadium, Athens, GA

Background

Sanford Stadium is the on-campus football venue at the University of Georgia in Athens, Georgia. The 92,746-seat stadium is the ninth-largest stadium in the NCAA. Georgia's average home attendance has ranked among the nation's top 10 for more than two decades. Surrounded by its famous hedges, Georgia's home field is one of the legendary facilities in college football.

Challenge

The team at Sanford Stadium requested a product solution that could:

- Replace the existing 20-year-old antiquated lighting system that longer met NCAA National Broadcast lighting standards
- Provide an entertaining fan experience that students, athletes and spectators (in stadium and watching at home) could enjoy

Solution

Ephesus 750-watt All Field LED fixtures and Prism RGBA fixtures
