

FLD6B/OR is being replaced with FLD6C/OR

Limited availability of FLD6B/OR components

DESCRIPTION

6 inch LED recessed downlight designed for **operating room** applications. Featuring a two-stage reflector with excellent light control and low aperture brightness. Lumen packages range from 1000 to 5000 with color temperatures of 3000K, 3500K, 4000K, and 5000K. Available with dim-to-warm technology, the 3000K LED warms smoothly as dimmed to 1850K, creating a warm glow within the space. IP66 compliant standard, NSF and MILSTD461G available.

SPECIFICATION FEATURES

Lower Shielding Reflector

Self-flanged, spun .050" thick aluminum lower reflector in combination with a lensed upper optical chamber provides superior lumen output with minimal source brightness.

Trim Retention

Retained with (4) counter sunk, philips head screws, holding the flange and bottom trim ring tightly to the housing. Bottom trim ring is standard antimicrobial matte white.

LED

High brightness LED's combined with a high reflectance upper reflector and convex lens for even distribution with no pixilation. Lumen output shall not decrease by more than 10% over the

minimum life of 55,000 hours (L90 > 55,000 hours). Auto resetting, thermally protected, LED's turn off when safe operating temperatures exceeded. Color variation within 3-step MacAdam ellipses. Disconnect allows for tool-less replacement of LED engine from below ceiling. Available 80, 90, or 97 CRI.

Driver

Combination 120-277V 0-10V or 120V trailing edge phase cut driver provides flicker free dimming from 100% to 10%. Optional for 1000-4000 lumens, 1% 0-10V. Driver can be serviced from above or through the aperture.

Lenses

Includes a non-removable upper lens, 0.060" thick frosted polycarbonate. Bottom trim ring lens is acrylic, 0.125" thick, with RFI grid.

Code Compliance

cULus listed for wet locations under covered ceiling standard. Non-IC rated insulation must be kept 3" from top and sides of housing. IP66 rated standard. NSF and MILSTD461G available. (MILSTD461G version is also compliant with both CE102 & RE102 requirements). Options to meet Buy American and other domestic preference requirements

Warranty

5 Year Warranty.

Notes:

1 Nominal Lumens will vary depending on selected color, driver and reflector finish.**2** Not available with Chicago Plenum.**3** ULus listed only.**4** Beam angles are nominal with LI finish trims.**5** Required with all IEMBOD housings.**6** Product is marked spacing and must be installed with the following minimum spacing.

- Center to center of adjacent luminaires: 36"

- Center of luminaire to side of building member: 18"

- Minimum overhead: 1/2"

7 MIL1 option requires the RFI grid lens**8** Bottom Trim Ring is required, it is not optional.

Standard finish for Bottom Trim Ring is AMF (antimicrobial matte white)

9 Only product configurations with these designated prefixes are built to be compliant with the Buy American Act of 1933 (BAA) or Trade Agreements Act of 1979 (TAA), respectively. Please refer to [DOMESTIC PREFERENCES](#) website for more information. Components shipped separately may be separately analyzed under domestic preference requirements.**10**- Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.
