## Overview

Fifth Light's Touch Screen provides graphical control of the lighting system at your fingertips. A large visual display makes it easy to adjust light levels and apply preset scenes. Control multiple types of lighting devices from a single easy to use interface.

## Features

- Adjust light levels by pressing the up and down arrows or the On and Off buttons
- Apply lighting scenes by selecting appropriate preset button
- Virtual groups defined through software avoid hard wired high voltage connections
- Ethernet interface shares data on existing Local Area Networks

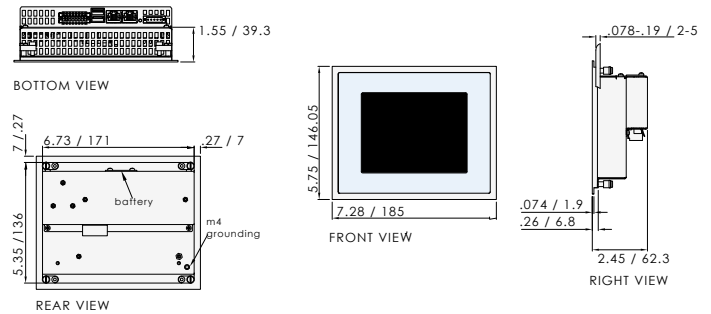

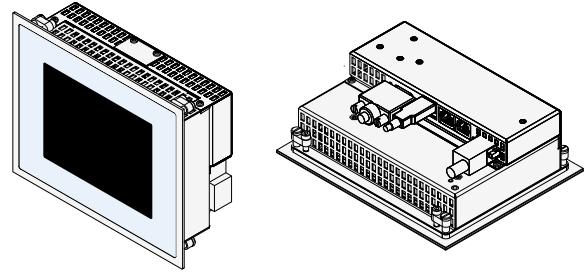

## Specifications
