

Simplified installation.

The CJB Integrated JBox Downlight gives you the freedom to add a fixture where you want, while maintaining an attractive, consistent look. It installs easily just about anywhere. There's no need to attach a junction box – it's already attached to the fixture. This slim LED downlight features two mounting options: fast installation directly into the ceiling with no housing needed or as an LED trim into an existing housing in retrofit situations.

CJB Series

LEARN MORE

- Specs: 35,000 hrs, 90+ CRI, 120V input, ENERGY STAR®, Air-tite, IC-Rated
- 5-year Warranty

A slim 2-in-1 installation LED downlight with integral driver and JBox suitable for fast installation directly into a ceiling with no housing needed, or retrofit as an LED Trim into an existing housing.

Canless

For a more convenient canless installation, the Jbox is already attached to the fixture. You can simply wire the fixture and install it into the ceiling.

LED Trim

To make the fixture functional within a can, you can wire the pigtail into the junction box and then connect the Edison adapter.
