HALO™

OUTDOOR LIGHTING

SLST SOLAR AREA FLOODLIGHT

WITH ALL-IN-ONE DESIGN AND 3 MODES OF OPERATION

Halo Outdoor all-in-one integrated solar floodlight adds safety and security to your home, property, or business with its ultra bright, long-lasting, all-weather lighting. It comes with an efficient solar panel for a seamless experience. Choose from 4 lumen packages and mount up to 15ft. With 3 selectable modes and integrated dusk-to-dawn functionality, it's perfect for rural and off-grid areas. Easy to install with a 1-year warranty.

PRODUCT CERTIFICATION

- Durable weather resistant polycarbonate construction with IP65 rating
- Rechargeable Li-Ion battery pack included
- Three operation modes: Motion Mode, Dusk-to-dawn mode, Motion + Dusk-to-dawn mode
- Top mounted solar panel ensures light is easily adjustable up and down for optimum positioning for direct sunlight
- High-efficiency solar panel, waterproof and dustproof construction, and high-impact ABS polycarbonate lens for ultra durability
- Motion sensor with 120-degree detection zone and 20-ft detection distance
- Adjustable LED panels enable user to direct light further outward if preferred
- Wall and pole mount accessories included
- IP65 Rated- Perfect for outdoor applications
- Available in textured bronze finish
- 1-year warranty

TYPICAL APPLICATIONS

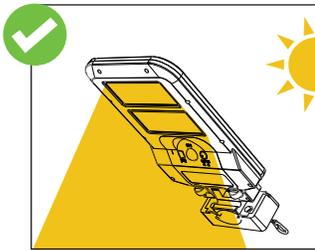

COMMERCIAL & RESIDENTIAL OUTDOOR

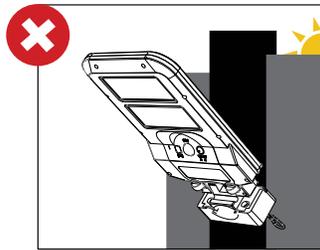

- Garages
- Carports
- Driveways
- Loading Bays
- Warehouses
- Apartment Complexes
- Hotels
- Offices
- General Security Lighting

Or anywhere where trenching wire is cost prohibited.
Put light anywhere simply and easily with Solar Power!

MOUNTING LOCATION BEST PRACTICES

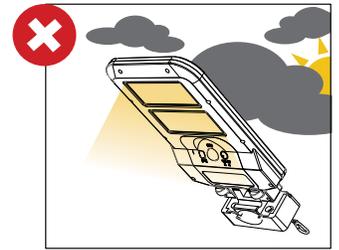

Most hours of direct sunlight, unblocked by trees or buildings

Limited or no direct sunlight, shaded or blocked by trees or buildings

Warmer location with predominant sunshine = Maximum performance

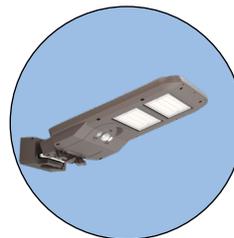

Cold location with consecutive cloud covered days = Possible inconsistent performance

PRODUCT FEATURE HIGHLIGHTS

ALL IN 1 DESIGN WITH REMOTE CONTROL

MULTIPLE WAYS TO MOUNT

WALL MOUNT
Mount light fixture to wall using included lag screws

POLE MOUNT
Pole Mount (pole sold separately) by using included hardware

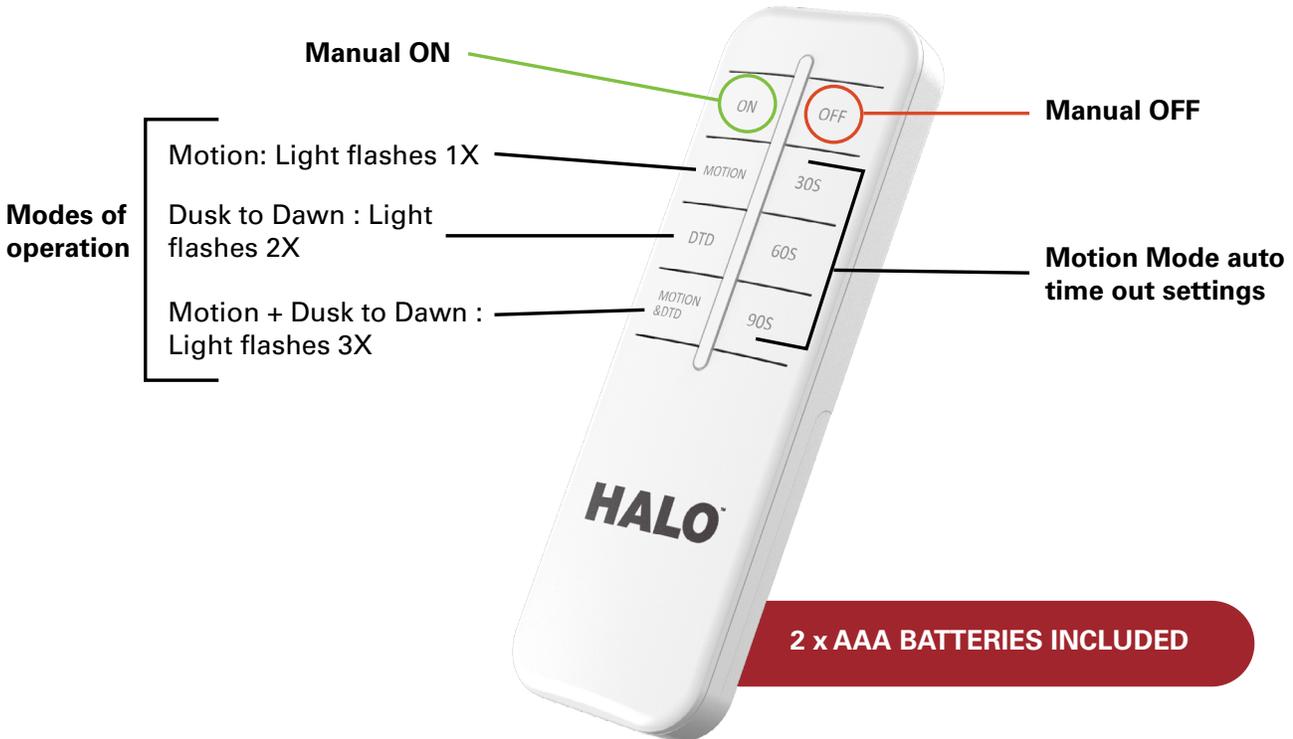

PRODUCT FEATURE HIGHLIGHTS (CONTINUATION)

INTEGRATED MOTION SENSOR

Fixture can be mounted 15' high and motion sensor has a detection angle (range) of 120 Degrees and can detect people up to 20' away.

REMOTE CONTROL SETTINGS

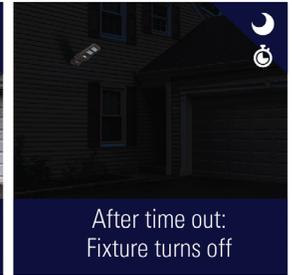

MODES OF OPERATION

 After sun down, fixture turns on
 |
  At sunrise, fixture turns off

PRODUCT SPECIFICATIONS

Construction

- Durable polycarbonate housing suitable for wet locations
- All-in-one design that includes fixture housing, solar panel, battery, and LED light source
- UV stable polycarbonate housing
- LED indicator light provides battery charging & discharging status

Optics

- Produces rated lumens when fully charged
- 5000K CCT perfect for security applications
- Clear lens for maximum light output

Controls

- 3 different operating modes configurable with included RF Remote control and also including standard On/Off functionality.
 - Motion Mode
 - Dusk to Dawn Mode
 - Motion + Dusk to Dawn Mode
- Auto Time Out settings of 30S, 60S & 90S when using motion mode before light turns off
- Dimming levels determined by selected mode of operation.
- Remote Control Range: 20ft-25ft (unobstructed)

Motion Sensor

- Passive Infrared motion sensor with a 120° detection range.
- Maximum detection distance of 20'.

Mounting

- Wall mount using included (2) lag screws and washers.
- Pole mount to any standard 2" curved pole (sold separately) with included U-bolt
- Mounting hardware included in packaging.

Electrical

- 120° Motion sensor with detection range up to 20 feet.
- Integrated rechargeable Li-Ion battery pack
- 90-minute continuous runtime on a full charge in motion mode
- Maintenance - free LEDs with estimated 50,000 hours lifespan based on LM-80 results and TM-21 calculations.
- Rated for ambient operating temperature range from 32°F (0°C) to 104°F (40°C)
- Integral photocell allows for nighttime ON / daytime OFF operation

Compliance

- IP65 Rated- Perfect for demanding outdoor applications.
- Contains no mercury or lead - RoHS compliant (RoHS 2.0)
- Photometric testing in accordance with IES LM-79-08
- Lumen maintenance projections in accordance with IES LM-80-08 and TM-21-11.
- UN38.3 transportation certified

Battery

- Total battery capacity of 90 minutes if run continuously at full brightness.
- Battery recharge time of 8 hours in full direct sunlight
- Batteries are not removable or replaceable.

Finish

Textured Bronze Finish

Warranty

- One year limited warranty, consult website for details. www.cooperlighting.com
