Sure-Lites | FirstLink

CONNECT. COLLECT. COMPLY.

Sure-Lites Emergency Lighting, now with FirstLink, provides assurance that the lighting in the building will deliver its occupants to safety when there is an emergency incident. It provides the critical illumination necessary for First Responders to assist occupants that need a hand to exit the building. It also helps the Facilities Manager efficiently comply with emergency lighting codes in a cost effective manner while ensuring safety.

SERVICE AND SUPPORT

10

TESTING IS MANDATORY.

FirstLink, by Sure-Lites, delivers peace of mind with a complete line of life safety emergency lighting solutions that ensure your building is emergency-ready. This fully code-compliant emergency egress lighting system is comprised of FirstLink enabled exit signs, exit lights or unit equipment, emergency LED drivers, and the FirstLink app.

The FirstLink app provides easy and instant access to the status of your system, allowing you to view and download the condition of all FirstLink devices. Reports can be saved and easily exported to prove the system is 100% compliant. Thoroughly tested to meet code compliance, FirstLink products provide the assurance you need, and the system's design allows you to know the status of your system at all times and maintain your emergency lighting system's compliance with virtually zero effort.

What can FirstLink do for you?

COMPLIANCE

Avoid costly non-compliance fines.

FirstLink components automatically performs all required testing. The FirstLink app downloads the status of all FirstLink devices and creates a report which can be easily exported or emailed.

CONVENIENCE

No ladders, no pushing buttons (unless you want to), no documentation, and **no searching for reports** during an inspection. FirstLink emergency lighting system components can be easily installed and configured in the field by the contractor or end user, making it truly field install friendly.

CONTROL

FirstLink is more than just a reporting system

- **Scheduling:** Adjust the frequency and timing of testing.
- **Troubleshooting:** Receive complete product status information.
- **Customization:** Create custom groups and zones, add or remove devices as needed, and work collaboratively with others through project sharing.

Test with the push button, automatically scheduled self-test, or modify the schedules on a group by group basis, to ensure tests run exactly when you want.

Manual Commands

The FirstLink App

COMPLETE CONTROL IS IN YOUR HANDS

The FirstLink app is your portal to the FirstLink system. This easy-to-navigate iOS and Android application gives you the ability to configure your system, view and export results, change testing schedules, and more.

New products, accessories and features will be regularly added. No need to update the FirstLink hardware already present in the building.

See the complete system status instantly and easily export and share test data

- Set a custom schedule
- Manually start a test on a group, zone, or device
- See product details
- Work collaboratively with other users
- Add/remove lights as needed
- Identify products through flashing of the luminaire
- Customize your install through the addition of zones and renaming of lights.

SERVICE AND SUPPORT

Sure-Lites offers commissioning and ongoing management services. Customers can avail of our services teams to perform commissioning and setup activity. They can also avail of our services team to actively perform status monitoring to fix any problems that come up.

Our team has been in the business for decades - we celebrate 50 years of serving Emergency customers - and we leverage the full breadth of our experience to service the needs of all customers.

SERVICE PLANS

Service plans offer proactive, onsite, and remote diagnostics, configuration changes, training, and software/firmware updates typical of maintaining lighting control systems. Service Plans help facility managers and owners maintain their investment for optimal performance and maximum value.

- Prepaid budgeted services, with coverage options for planned and unplanned visits.
- Fully customizable to meet your unique requirements.
- Optimize your system as your building needs evolve
- Our Service Plans are available in single or multi arrangement and are customized to fit your exact needs. Cooper Lighting Solutions has two Service Plans designed to fit your service requirements and budget.

SUPPORT

The services and support team simplifies design and specification. We're committed to supporting your project needs from design to occupancy and beyond.
